References to the used, including the date of the standard, or references to the other technical specifications, including the date of the specification, in relation to which conformity is declared:

Health & Safety	BS EN IEC 62368-1:2024+A11:2024
EMC	BS EN 55032:2015+A1:2020; BS EN 55035:2017+A11:2020
RoHS	BS EN IEC 63000:2018

Note: These component level power supplies are intended exclusively for inclusion within other equipment. Protection against electric shock and Electromagnetic Compatibility (EMC) must be checked when the equipment is built-in a completed product or forms a part of a complete system.

The units have been tested and evaluated to the safety requirements of EN IEC 62368-1:2024+A11:2024.

An additional delta evaluation of the above-listed equipment concerning the differences between the requirements of the harmonized standard BS EN 62368-1:2014 (with all applicable corrections) and EN IEC 62368-1:2024, and IEC 62368-1:2023 has been performed and concludes that the safety objectives of the low-voltage targets (UK SI 2002 no. 1101) are met.
