

Packaging Compliance with PPWR

Subject: Declaration of Packaging Compliance with the Packaging and Packaging Waste Regulation (EU) 2024/40 (PPWR)

Dear Business Partner,

As a company committed to environmental regulations and sustainability, we hereby confirm that the packaging materials supplied by Bel Fuse Inc. comply with applicable European Union legislation, including the requirements set forth in the new Packaging and Packaging Waste Regulation (PPWR).

1. Material Composition and Recycled Content

Our packaging is manufactured from the following materials:

- BOPP Tape adhesive
- Cardboard
- Cardboard + PE Foam
- Cardboard + PE foil
- ESD bag
- ESD foam
- ESD PE foil
- Paper
- PE bag
- PE foam + glue
- PE foil
- Plywood
- PP foil
- Wood

As part of our sustainability strategy, we are committed to increasing the share of recycled content in our packaging in accordance with the mandatory targets established by the PPWR. We are actively working with our suppliers to ensure that our packaging solutions align with the progressive implementation schedule for recycled content requirements defined in the regulation. Our materials have been selected with regard to their functionality, environmental footprint, and the optimization of packaging volume.

2. Compliance with Chemical Substance Requirements

In accordance with the PPWR articles regarding the restriction of hazardous substances, we declare that our packaging materials:

- Do not contain restricted substances in concentrations exceeding the established limits.
- Are in full compliance with the REACH Regulation (EC No. 1907/2006) and the RoHS Directive (2011/65/EU), where applicable.
- Do not contain Substances of Very High Concern (SVHC) above the permitted concentration (0.1% w/w), as defined in the current candidate list under REACH
- Meet specific requirements regarding the presence of heavy metals and other restricted chemical substances, ensuring they do not pose risks during further processing or recycling.

3. Sustainability and Recyclability

We are actively ensuring that our packaging solutions meet the criteria for design-for-recycling, thereby contributing to the fulfillment of the 2030 circular economy targets stipulated by the PPWR.

4. Contact Information for Packaging Compliance Queries

For all inquiries regarding the environmental compliance of our packaging, requests for technical documentation, or supplier certificates, please contact our dedicated team at: envidata@psbel.com

Please direct all future communication regarding these matters to this address, and our team will ensure a timely response and provide the necessary support.
