

End-of-Life Notification

Date: __ 20th Jun 2025

EOL of EOS ITAV Class II Products:

Dear Valued Customer,

As part of our product lifecycle management process, EOS Power provides notification when a product has reached End-Of-Life (EOL) status. EOL decisions are based on our review of material availability, historical unit shipment volume and product revenue performance. Due to low sales volume, EOS has not updated the certification for Class II variants under the newer safety standard and has decided to make these FGs End-Of-Life.

Please note the corresponding medical versions of these parts are still active and can be ordered, which may be a suitable alternative depending on your application needs. Please contact Bel/EOS sales regarding this.

If you have any questions concerning this End-of-Life notification, please contact your EOS/Bel Fuse Customer Support Representative.

The parts impacted by this notification are listed on the following page.

We would also like to take this opportunity to thank you for your business in the past and to assure you that everything we do is aimed at becoming your power supply partner of choice in the future.

Sincerely,

Cristina Birdthistle

Bel Power Solutions & Protection
Manager, Customer Service
