Bel Fuse to transfer Cartridge Fuse Product Line

Dear End-Customer or Sales Channel Partner,

We are writing to you because our records show that you recently bought models affected by this PCN.

As part of the continuous optimization of our global production in terms of suitable products/product technology, we have determined to transfer production within China. It is necessary to expand production into another facility to secure additional capacity and support future growth.

The product transfer will begin in December with the target of being able to produce the first products during February 2025. Timing varies by products, with initial mass production in Q1, 2025.

This notice covers Cartridge Fuse Products (see full list in annex).

We are planning and executing this transfer very carefully over the next 6 months to minimize any possible disruption. Bel understands the importance of maintaining continuity of products for our customers. We are pleased to announce that we will continue to produce these products indefinitely. In addition, we are building safety stock to ensure a smooth transition.

We are also doing some product rationalization within the Cartridge Fuse group. Some items are going EOL and are addressed in separate announcements, (MJS/0653 series, 5TT/0654 series, 5ET/0655R series, 2JQ/3JQ/0657R series, 2JS/3JS/0658R series, 0659C - 0659P series, 5MF/0651R series, 0657P series).

We would also like to take this opportunity to thank you for your business in the past and to assure you that everything we do is aimed at becoming your Circuit Protection partner of choice in the future.

Very Truly Yours,

Danny Giblin

Danny Giblin
Circuit Protection Product Manager
