

SCNR4010

SMD POWER INDUCTORS

- Features

- ### 1. Open frame construction.

ELECTRICAL CHARACTERISTICS

(1). Inductance tested at 0.25V, 0ADC and 25°C.

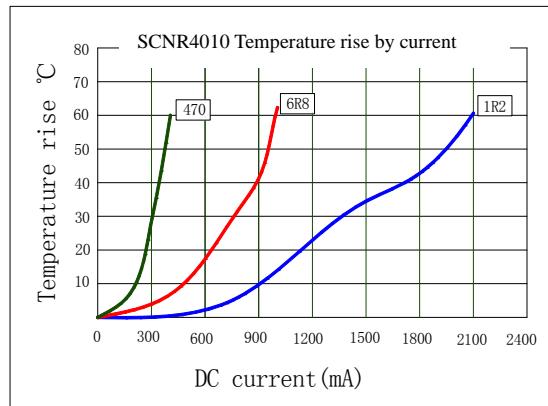

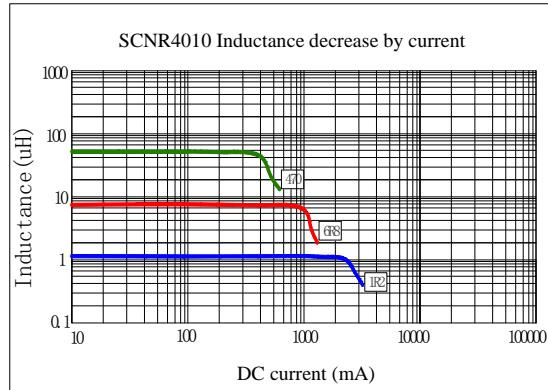

Tolerance of inductance: 1.2uH-2.2uH±30% (N).

3.3uH-47uH: ±20% (M).

(2).DCR measured at 25°C.

(3). The DC current at which the inductance decreases by 30% from its initial value.

(4).The DC current that results in a 40°C temperature rise from 25°C ambient.
